1203-12 and 1027-10 Industrial Wheel Assemblies with Semi-Pneumatic Tires

Reliable ACE PRODUCTS, INC. heavy-duty industrial wheel assemblies stand up to the demands of the most punishing material handling uses. These 'no rust' high-impact polyolefin wheel assemblies come with sintered metal bushings, ball bearings or acetal bushings and, heavy-duty ACE semi-pneumatic tires.

These industrial wheel assemblies have a load capacity up to 350 lbs. Wheel centers themselves are safety-designed to carry in excess of 750 lb. loads. ACE Models 1027-10 and 1203-12 wheels are available in a wide range of tire tread designs, and a choice of wheel center colors.

Color and Wheel Style:

Standard Colors – White, Off White, Silver, Gray.
(Set-up charge for colors other than above.)

Hubs: 2 1/4" Offset (Not available on 12 x 3)
2 1/2" Symmetrical
3 1/4" Extended Hub - Symmetrical.
