

# Value Series

## Thermoplastic Rubber

Capacity 200 - 300

The Value Series Thermoplastic Rubber wheels are the newest addition to our wheel lineup. After many years of searching for an import product that stands up to our stringent quality control process, we are proud to introduce the value line. These wheels are manufactured from a thermoplastic elastomer that is chemically bonded to a polyolefin core. These wheels combine all of the favorable characteristics of both hard and soft rubber wheels. They are smooth rolling, quiet, impact and chemical resistant, while providing excellent floor protection.

### Features

- Low Drag
- Non Marking
- Light Weight
- Cost Effective
- Unaffected By Most Chemicals
- Temperature Range -20°F / +180°F
- Durometer 80 Shore A

### Features

- Also Available With 1/2" I.D.
