

Poly O SERIES

White General Duty Casters

Capacity 225 - 1000 LBS.

The White General Duty Series is manufactured from the same proprietary blend of polyolefins as the general duty line, but in a white material. This in no way affects the overall capabilities of the wheel. However, the white material does allow easy identification of contaminants. In addition, these wheels are dished rather than ribbed to allow for easy cleaning. Due to these advantages, White Poly O wheels are ideal for the food production industry.

Features

- Light Weight
- Cost Effective
- Highly Impact Resistant
- Unaffected By Most Chemicals
- Excellent In Wash Down Situations
- Temperature Range -20°F / +180°F
- Durometer 70 Shore D

Options

- Delrin Bearings
- Metal Washers
- Food Grade Grease
- Grease Zerk In Wheel
- Sealed Precision Bearings
- See Other Poly O Pages For Additional Options
